

## **Lord I Want To Look To You.**

v1 Lord I want to look to you,  
I know if I do this the blessings will come pouring through  
I've seen and heard so many works of you  
Now I want to see it myself and look to you.

v2 You read my thoughts each and every day  
You know my needs before I pray  
and that's the wonders of you  
And why everyone should praise you too.

v3 Lord I want to look to you  
I know if I do this the blessings will come pouring through  
I've seen and heard so many works of you  
Now I want to see it myself and look to you.

v4 You're there with me every step I take  
I know our bond won't break  
I look to you in the things that I do  
'Cos I know you'll see me through

v5 Lord I want to look to you  
I know if I do this the blessings will come pouring through  
I've seen and heard so many works of you  
Now I want to see it myself and look to you.
